### Artist Profile

桜井

SAKURAI

しっぽが2つ、猫又です。闇に紛れて夜な夜ないたずらをしています。  
自分の目の色と同じ鮮やかな黄色い向日葵が気に入ったみたい。  
実は猫又はたくさんいると思っています。

“Nekomata” has two tails. They play pranks every night under the cover of darkness. She seems to like the bright yellow sunflowers, which are the same color as her eyes. Actually, I think there are a lot of “Nekomata”. “Nekomata” is a cat monster that appears in legends, folk tales and ghost stories throughout Japan. It is said that a cat that lives a long time will eventually transform into a “Nekomata”.
