「何で宇宙と魚なの？泳げたくない？」昔描いた絵を見た家族からこう聞かれました。生き物が宇宙を泳いだり飛んでいる姿を想像するとワクワクしますし、あり得ない事だけど素敵だなと思っています。「自由に想像したって良いじゃない」当時の気持ちを思い出しつつ描きました。この絵を通して自由な発想でノートを彩るきっかけとなれば幸いです。

Why space and fish? Aren't they able to swim? My family member asked me after looking at a picture I made a long time ago. I get excited when I imagine living things swimming and flying through space, and even though it's impossible, I think it's wonderful. Isn't it good to imagine freely? I drew this while remembering how I felt at the time. I hope that this picture will give you an opportunity to color your notebook with free ideas.
